

HELSINKI EDUCATION IN ACTION FOR TEACHERS

## HEAT 2020

TEACHERS' SUMMER SCHOOL

ATTENTION TEACHERS AND EDUCATORS!

It is time to apply now for  
Teachers' Summer School 2020 in Helsinki, Finland.

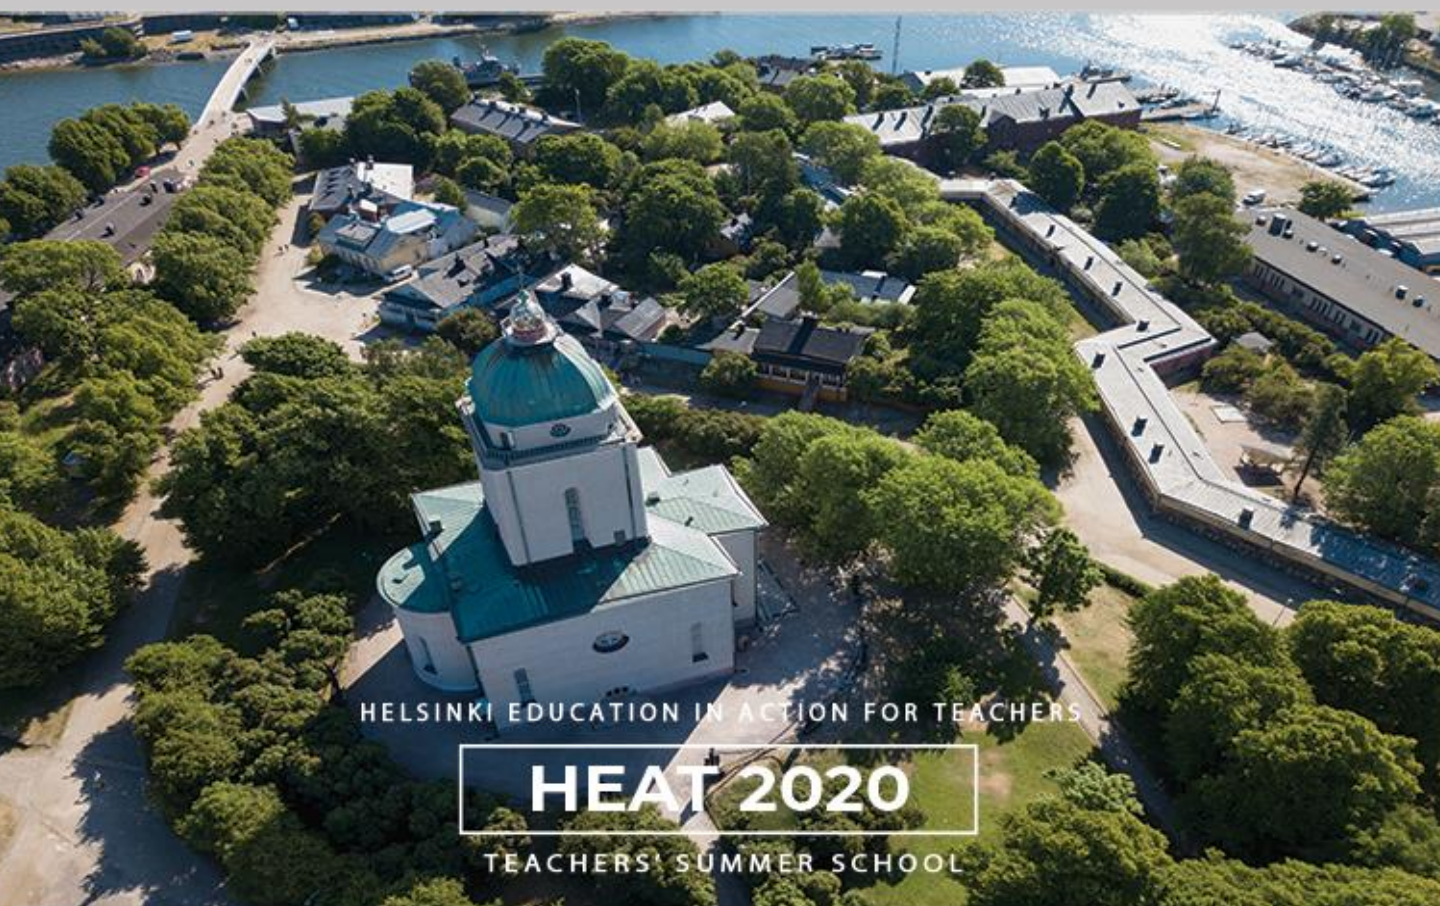

The Summer School is organized by VisitEDUfinn, Hostel Suomenlinna and  
The Organisation for Outdoor Education in Finland.

The school lessons will be taught in interesting educational venues and in  
historical Suomenlinna Sea Fortress, a World Heritage Site.

There is space in the classroom for 20 eager teachers.  
So be quick and register yourself today!

HELSINKI EDUCATION IN ACTION FOR TEACHERS

## HEAT 2020

TEACHERS' SUMMER SCHOOL

**The Summer School curriculum** bases on Finnish national core curriculum. The pedagogical approach is holistic and student-centered. You will take a part to the interactive and inspiring learning sessions. We will focus on phenomenon-based teaching and learning, a move away from subjects and towards inter-disciplinary topics. HEAT Summer School is like a typical Finnish Camp School which aim is also to strengthen co-operational and communicational skills in the classroom. You will be able to learn by doing and sharing not only with the students but also with the local experienced teachers.

**NEW FOR HEAT2020:** There is also a possibility to visit the Finnish public school and see the students in action. The students will also join the workshops with you in Suomenlinna. Each workshop day teachers/educators will have different tasks to follow and aims to achieve!

**During HEAT2020 You will get familiar with all the characteristics of the Finnish Education:**

## EDUCATION IN FINLAND

- ✓ One of the basic principles is that everyone must have equal access to high-quality education and training.
- ✓ Each student has the right to educational support.
- ✓ Special needs education is generally provided within mainstream education.
- ✓ The Finnish education system bases on the philosophy of inclusion.
- ✓ Education system is based on trust and responsibility.
- ✓ Educational autonomy is high at all levels.
- ✓ Most education is publicly funded.
- ✓ National core curriculum gives space for local variations.
- ✓ Learning outside the classroom is common.
- ✓ First national examination is at the end of general upper secondary education.
- ✓ Teaching continues to be an attractive profession.
- ✓ Finnish schools have highly educated teaching personnel.
- ✓ Continuing teacher education is widely encouraged.

### ACCOMMODATION

Summer School participants will have the option to stay overnight in an old elementary school, Hostel Suomenlinna.

The Finnish Hostel Association has designated Hostel Suomenlinna as the Hostel of the Year 2018.

The hostel, owned by The Organisation for Outdoor Education in Finland, is located on one of the Suomenlinna islands, just 15 minutes from the city center by the ferry.
