SUMMER SCHOOL

At the heart of the study tour is our commitment to education and personal growth. Through hands-on workshops, interactive sessions, and engaging projects, youngsters get a taste of the renowned Finnish education system. But it's not all about learning — Finnish culture and traditions will also take center stage. From experiencing the joy of sauna, or hugging trees in the forest, to tasting delicious Finnish cuisine, they'll gain a deeper understanding of Finnish lifestyle and make unforgettable memories together.

LESSONS FROM FINLAND

- Exploring and opening new horizons
- Creativity, design thinking
- Team spirit, social skills
- Worship of nature: spending time in the forest, survival skills, taking care of the environment
- Entrepreneurial mindset, independent thinking
- Balanced lifestyle: less accent on academic success and more accent on overall wellbeing
- Enjoying simple pleasures of life and feeling gratitude
